Allowable Subject Matter

1. Claims 1-34 are allowed.
2. The following is an examiner's statement of reasons for allowance: as applicants properly point out, starting on page 9 of the remarks, Peairs in combination with Zimmerman, et al do not teach or suggest capturing with a scanner a selected portion of text of printed information wherein the selected portion of text captured is user defined topic classification indicia keys with a close-to-unique identifier of the text for recommending user defined topic matters, and serves as a key when the information is accessed electronically. It is for this reason and in combination with all of the other elements of the claims, that claims 1-34 are allowable over the closest prior art of Peairs and Zimmerman, et al.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
